I have been trying for 2 years now to use my real name, but its fine, if it suits you - use it. I changed my name because I wanted to start afresh in life and because I do not wish to be associated with bad people, that have cheated me on 10 occasions. Someone tell me how that should make me feel! I didnt even ask for your sympathy, I dont need it and I dont want it. I have my name back and I am happy with it. And I am proud of it! So you can stop pointing your finger at me, its not funny and its not my fault. I am a good person, and I want to be a good person! I dont want to live a life in fear and afraid of realising what has happened to me and the damage it has done. Someone please tell me how I could have possibly realise what im talking about, I can not believe that people are still making excuses for these people! They are no better than the stangers that stole my life from me! They are not worthy of my time! Im the life that should have come to you, but you werent ready for me! You wouldnt recognise me, Im a different person, a better person, a happier person. This is me, as I know you would see me, I hope you do! Even if you will not call me my name, I dont care! I am proud of who I am, and I will call myself by my name! So all you have to do is stop pointing your finger at me and just move on from this day forward! 1 comment: I am impressed with your post.
