I was trying to figure out how to get a Logitech USB headset to work with a Creative Labs Sound Blaster X-Fi? . . driver sk-100g windows free driver instalation.Q: closing php script in javascript doesn't always work I have a php script that runs a java application and redirects to another page depending on the data that it gathers. I have a jquery dialog box that asks if the user wants to view the data, if he clicks yes then I close the dialog and redirect, if he doesn't click yes I don't close the dialog and the user gets no further action. The problem is that sometimes if the user is clicking no and the script is not being closed in the correct manner then the browser is being left on the original page. Here is the javascript that I'm using to open the jquery dialog: function showModal() { jQuery("#editmod").dialog({ modal: true, title:'Edit Data', resizable: false, height: 'auto', width: 'auto', show: 'fade', hide: 'fade', lockOpen: true, lockDuration: 500, dialogClass: 'no-close' }); jQuery("#editmod").dialog('open'); } And this is how I'm closing it: case "yes": jQuery("#editmod").dialog('close'); location.href=location.href; break; case "no":
