Fisiologiahumanatresguerres4taedicionpdf100

A: You are calling a method on a value that has not been set. Your sql string appears to be concatenating a populated string (HttpResponse.ContentLength) to the string retrieved. The evaluation of HttpResponse.ContentLength is done before you even have a value to bind to. Check to see if your if statement is being executed before the assignment has been completed. My guess is

```
HttpResponse response = new  
HttpResponse(String.Format(@"{0}/Download/{1}", Config.SiteRoot.ToString(), FileName),  
HttpContext.Current.Response); HttpContext.Current.Response.Clear();
```

```
HttpContext.Current.Response.WriteFile(FilePath); HttpContext.Current.Response.Close();
```

```
HttpContext.Current.Response.End();
```

This is the snippet that might be called before you set the HttpResponse. A: Try not to assign values to the HttpContext.Response object. You probably meant to just use the FilePath variable. Q: Evaluating $\lim_{n \rightarrow \infty} \sum_{k=1}^n \sqrt{\frac{k}{n^2+k}}$

I came across this problem as a practice exam, with the following: $\lim_{n \rightarrow \infty} \sum_{k=1}^n \sqrt{\frac{k}{n^2+k}}$ I have seen some answers for this type of question, but no one seems to get to the answer I gave. $\sum_{k=1}^n \frac{k}{n(n+1)}$ $= \frac{1}{n(n+1)} \sum_{k=1}^n k$ $= \frac{1}{n(n+1)} \frac{n(n+1)}{2}$ How do you get to the answer I gave? A: Your series is equal to $\frac{1}{n(n+1)} \sum_{k=1}^n k$ $= \frac{1}{n(n+1)} \frac{n(n+1)}{2}$, so for $n \rightarrow \infty$ the limit is $\frac{1}{2}$. Mold House e79caf774b
