Similar news: Kogi Pop App Launched For Android And iOS - Game.Life.Ur - - KOGI Pop! is a free restaurant guide app that helps you find the best food and restaurant around you, regardless of the area you're in. It is one of the best apps of the week. The new app is available to all users of KOGI (www.Kogi.com) with a free, non-restrictive subscription. The deal launches on Monday, March 9th and is valid until March 15th. "The demand for Kogi's restaurant recommendations is very high, and so are its users," said Kogi co-founder and CEO John Lee. "With the launch of our new restaurant recommendation app, we want to reach even more people with our brand of meaningful, authentic, fun and delicious food recommendations." How It Works Kogi Pop! uses GPS technology to provide point-of-interest restaurant recommendations based on where you are. It includes more than 30,000 locations. There are two types of recommendations: Restaurants and New Restaurants, that can be filtered by time and location. The app's location will automatically filter search results, so users don't need to do anything once the app is opened. Users can make a request for "f... on out"
