Interactive contents are available for both Japanese and English. Japanese version only:  
\* THUMBS UP!!!!!!! Since I believe the game is not open in english probably you want to install it in the folder that contains the language that you use. If that is not so click the arrow and go to downloads there should be a box with English in the name. If you can't see then copy the folder and paste it in your steam folder. Last but not least go to the checksum tab on your gaming copy and change the language default to english. I liked the game and hope you do too Thank for posting this! I hope it will look great on my gaming rig. There is another noticeable error. It is the cutscene on the first opening level that is repeated along with error. Hi guys, I saw that some people reported problems with accessing quests while being offline. I live in Japan, and I also got the issue of the game crashing inside the scenario creation. I believe both of these are problems in the new and latest version, which is now 1.16. Well for some reason my PC is
