“Sentimental K is a fast-paced, challenging, cross-over puzzle game which mixes puzzles, rom-com elements, and aggressive platforming. You play as a lonely guy who’s trying to reunite with his ex-girlfriend (who happens to be a doll). You can play alone or in co-op, local or online.” 4.5/5 “A thoroughly enjoyable puzzle platformer with an interesting and fun story” Indie Game: The Movie “Indie Game: The Movie takes a fun, silly look at the inner workings of an independent game studio, as seen through the eyes of actual indie developers. This is a truly unique take on the indie scene from an entirely new perspective, and works surprisingly well...For those who have never had the pleasure of working in the industry, indie game development can be a frustrating, lonely and unfulfilling pursuit. Indie Game: The Movie is an enjoyable (and at times, touching) look at how that process is carried out by its participants and it’s one that I think fans of the genre are sure to appreciate.” RPS About The Game Indie Game: “We’re one of the US’s fastest growing independent game companies.” About the Developer: “We’re an up and coming indie game studio based in British Columbia.

You may have heard of us..." Her review of the game was limited to what has already been uploaded to Steam Early Access. As a result, Tram, who has played Sentimental K, felt it was a bit unfair to give a review which was based on an incomplete version of the game. She goes on to say that the game is very funny and there are many things in the game to keep you guessing. She recommends the game to any fan of puzzle platformers or comedy games. She is actually a fan of the game and wants to see more from the game. I agree with Tram's review as I have played the game since it was uploaded to Steam Early Access. It takes what was said about gameplay in the game and adds to it. The two major things that you should know about the game is that it is a cross-over game and it has no dialogue. What you see is what you get. The game is funny and there are many things to keep you guessing. The interface of the

- 50 Achievements - 5 Slots - Two types of game play - Great Sound design - High replay value. I would like to point out to you that the text files have been edited for better readability and added descriptions where they were missing (like machine names) If you have any questions and feedback, feel free to contact me. Some text files might not be displayed correctly in some windows (e.g. Win 95, 98). This is not a fault of the game, rather the text file design. Have fun. Under no circumstances it is

allowed to use any of the content of this game for advertisements. This game is free for private use only. If you are not for the personal use, it is encouraged that you charge a fee for use. Monetization: free / pay what you want Version: Description Slot Idler - Idler, slotmachine, slots, fruitmachines, idle players, idle games, would you like to play a slotmachine game that runs on a windows desktop while you work? Look no further. Sit back and enjoy the game as it runs for hours in a small dialog box. You can close the dialog box whenever you want to. Press the "Continue Game" button and let the reels spin. At some point the reels reach a successful combination and start to produce coins. Depending on the machine it is either possible to play more, or a fruit or coin will appear on the screen. Depending on the machine the fruit will either fade out or keep appearing until the money gained from the last fruit is collected. As the reels spin, a simple 2D graphics "show" is created. The graphics are created by the books I use. If you click the "Continue Game" button again the reels start spinning and the fruitmachines produce new fruit. It can play back and forth without you being able to influence the outcome of the game. You are just a spectator. Speaking of the gameplay you can choose: - to play all 5 machines for free - unlock the machines for a fee by purchasing a key (250 coins minimum) - play only one machine for a fee. You can see your progress on the leaderboard. As of now there are 5 machines: - PiXel Noidle Device - PiXel Noidle - Noidle Generator - Noidle - Punch c9d1549cdd

Hand-Crafted Combat: Melee and RangedCombat options include melee, ranged and spells. The way you fight with the game is completely customizable. There are 6 levels of weapon combat, with a randomly generated armor system, and the ability to select one out of up to four different melee movesets for your character. Command your team: Each player controls their entire team directly. The game does not automatically switch between characters, so you are free to command your entire team as one unified force, moving them around the field, collecting items, and fighting. Control the Environment: The map is a living environment. You can interact with the environment: dig tunnels, break down walls, and more. In addition, your team is constantly harvesting resources as they move around the environment. You can also communicate with other players and control how your teammates fight as you continue to play. Interaction: The game allows you to interact with the environment in a number of different ways. You can use items, dig through objects, mine resources, smash barricades and destructibles, construct traps, erect walls, and more! Take cover: The game uses a voxel-based rendering system, allowing you to see the 3D environment around you. While the enemy may be 2D sprites, they can shoot directly at you! A Fully Interactive Map: Every player is on the map! The game is not limited to seeing the map from the player's POV, but can also be viewed from the enemy's perspective. This allows players to view the map from all angles. Steam Community Demos: Many different content creation tools and a developer community are included with the demo. Pathfinding & Visibility: The game uses a custom-developed pathfinding engine and visibility system to optimize map exploration. The goal is to

keep every player alive, and to give players the freedom to play the game in any way they choose. Weather and Seasons: In addition to the full game, a complete weather system is included. As players move around the world, they will encounter storms, fires, tornados and more. You can also see the full change from spring to fall in every day. Pathfinding & Visibility: The game uses a custom-developed pathfinding engine and visibility system to optimize map exploration. The goal is to keep every player alive, and to give players the freedom to play the game in any way they choose. Game Modes: A free for all PvP,
