of the State, which recognizes and enforces such a lien against real estate (§ 27), is not a constitutional or statutory officer; and section 41 of the Code of Civil Procedure does not render him liable to a writ of attachment issued thereunder. Therefore, the defendant cannot be compelled to appear for the plaintiff in this action. If the statute of limitations as to the claim has run, and the defendant has obtained a discharge in bankruptcy, the provision of section 37 of the Code of Civil Procedure that the discharge of the bankrupt discharges also the claim of the plaintiff, would prevent the plaintiff from maintaining an action upon such claim in the courts of the State. The provisions of section 2 of the Bankruptcy Act that a discharge in bankruptcy operates as an adjudication upon the merits of an action already pending to recover a claim as a debt or obligation, and that a judgment in a suit upon any such claim is a determination of dischargeability and not a bar, are plainly valid as a construction of the act of Congress. Compare *Fraser v. Burlingame Sheep Co.*, 212 U.S. 143; *In re Spillane*, 140 F. 597; *In re Wagner*, 232 F. 771; *In re Leach*, 3 Cir., 190 F. 989; *In re Cox*, D.C., 287 F. 909. The sections of the Bankruptcy Act which declare that a state or municipal claim is not a provable debt and which declare that discharge in bankruptcy does not release a claim for taxes, are valid enactments. They do not purport to authorize suits to enforce the state lien and do not purport to affect the right of the debtor to a discharge in bankruptcy. In this action the plaintiff does not seek to enforce a lien against real estate. It appears from the declaration that the object is to obtain a judgment and execution thereon against the defendant's personal \*483 property for the alleged indebtedness. However, a judgment for the plaintiff, which no court in the State is authorized by law to render, cannot be enforced against the personal property of the defendant in the State. The State has no property law by means of which a court can declare a judgment against a defendant personal property. It is true that section 2 of the Bankruptcy Act makes a discharge in bankruptcy act as an adjudication upon the merits of an action already pending to recover a claim as a debt or obligation. However, such an adjudication does not affect the plaintiff's right to a judgment for the

## What's New in the Adobe Photoshop CC 2019?

I'm not even going to go into the first, yes, amazing, instalment of the Dragon Age franchise and the second, also amazing instalment of the franchise which I couldn't wait to get my hands on. So, now you've seen it and read about it, you may want to check out my thoughts on the third instalment. I'll be as honest with you as I can be, that's the beauty of video games, you can only give a first impression and an initial thought, but as the games go on you learn and grow as a gamer and eventually find out that you loved what you did for the first time. Dragon Age: Inquisition has a character called Hawke, someone not seen much in video games, but boy is he a character people are lapping up like a piece of chocolate cake. You play as Hawke, with two other companions and enemies, the two other companions are your companion points are a dwarf named Varric and a half-vampire named Cassandra. Hawke can choose between the two companions, one of the two characters and, in game dialogue, you get a big spoiler here, is already dead. I kid you not. So you get to play as Hawke, look after his companions as they get more and more like him. His action is to heal his companions, earn companions, move forward, collect loot and raise the level of companions. It's bloody brilliant and I can see why Hawke, has achieved great popularity for the games. He's somewhat reminiscent of *Fallout 4*'s character classes, with Hawke also having class quests. In the game, the class quests involve dragon hunting, sending the companions on specific missions, one would be going to a town, where an army of Orcs are gathering in a town and have arrived out of nowhere. They are attacking everything and taking people as hostages and then on quests you're tasked with freeing them and getting them to the keep of a faction of the Inquisition. Personally, I like the dragon hunting quest in the game and I'm a little disappointed that it doesn't follow the Dragon Age franchise, it was a little too random and hurried for my liking, and a few of the quests involve some hacking of computers. I think it's a shame that Bioware didn't spend their time doing it, they could have made
