How to Create a Fashion Blog

Hi guys! A while ago I started my blog and I haven't actually posted anything on it! I found it difficult to create content that people found interesting and want to read about. Here is what I've done so far to improve my blogging:

- Be more interesting
- Create more unique content
- Improve my appearance
- Make it easier for people to find my blog on their readership platforms
- Create links to my blog on social media profiles

So I started writing my blog in October and it's been slow going. I'm trying to figure out a formula that works for me. Here are some of the things I do:

- I write about what I want to write about
- I ask questions to help me learn about other things
- I do not write articles about other people's opinions
- I am spontaneous
- I answer questions whenever I get them
- I find topics that interest me and write about them.

To be honest I don't always write about what interests me. For example, I also write posts about my fashion journey. I talk about things I'm passionate about

- I listen to feedback and ideas from other people
- I talk to people and ask questions about the things I'm writing about

Being an entrepreneur and someone who does not need to work a 9-5 job has its advantages and disadvantages.

Yes, I get to work when I want to work and I can take some time to relax. However, I'm also working longer hours. I have to be present at work on my blog. I'm also

---

getting my thoughts organized, I'm planning future posts and creating ideas for articles. I am setting myself up for the future. I've also been putting a lot of time in to my blog because I love doing it. I'm a terrible writer but I don't need to be. I create something and I'm happy with it. I'm still working on my writing skills but I feel like I'm getting better at it. I've also been practicing with my writing skills, it's 6d1f23a050
