The next step is to use a burning program like Nero or Roxio to write it onto a DVD. The program is very easy to use. All you have to do is download the ISO image, and add it to the program. Then, burn it to the DVD. The DVD should boot from the DVD drive without any additional action. If you need to encrypt the DVD, then, you have to use the native Windows-based DVD decryption tool. You can use the ISO image that you have just created. A common problem with this type of DVD is that is not bootable unless you have a bootable DVD. So, you should make sure that you copy the ISO image to another media drive, or download it to an external hard drive. 1.0.4 or newer Installation: 1) Run foobar2000.
