## Onechanbara Z2 :Chaos All DLC Bundle [Patch]

The above onechanbara post doesnt cover the Onechanbara Z2 :Chaos All DLC Bundle. This bundle includes a patch for onechanbara that brings it up to date with the second instalment of onechanbara's limited three-chambered events and improves background music and audio sound effects. Some new characters are added too. If you have already purchased the onechanbara DLC Bundle, you will automatically be added to the Onechanbara Z2 :Chaos All DLC Bundle as soon as it is released. If you are new to the onechanbara franchise, this bundle is a great way to get in on the action quickly. If you have the Onechanbara Origins patch, you can use it on the other DLC from the onechanbara series as well. If you do have onechanbara Origins, you will get an increased level cap and extra costumes. What can I say, I love videogames. Onechanbara Z2 is a pretty decent fighter, and its weird battles are definitely refreshing. But, its cheap costume packs and short length of play make it worth less than a second. If you have a Wii, its a good fit, as it works well with its motion controls, and the fact that it a lot of fun to play isnt even a concern. Finally, can I get a little free advertising? As someone who made 3 different Japanese versions of Onechanbara Z, I can say without a doubt that it is superior to the English version! Not only are the different languages easier to pick up, but there are a lot more mistakes in the English translation. Other than that, the interface is super awkward, the controls are wrong (although I probably prefer them to the English version), and its achievements are uncategorized (but fun!). The lack of a dual analog stick makes it hard to pull off double-jumping and wall-runs, though the controls are passable. Oh, and Xbox version, you need to lower the framerate in order to make it run. I mean, seriously, can you believe this? They demanded two hour long cutscenes, but they didnt think that a framerate of 30 FPS isnt bad? Nothing requires 60 FPS now. 5ec8ef588b
