
Delphi Firmware Update

We recommend using the latest delphi 1532 firmware. Easy step by step update to the latest firmware, download all releases. In our example, we are using the firmware for V9D1 as it is the newest firmware. After installing the firmware, go to the "Service" section, select "Settings". On the settings page, go to the "Software Update" section. Select the item "Flash". A window will appear asking you to select firmware files. Select file, upload file. After a few seconds, the device is ready for the update. Everything. Firmware completed.
