Price: 3.99./regexes.php" > RegExp .greentext { background-color: #0F0; color: #0F; } You may use regular expressions within your pages. There is a regular expression demo showing how to use regular expressions in Zencoder. In Zencoder, regular expressions are simply the language specifying which characters are valid within a given field (of tag). Zencoder formats the regular expression into a string so that it can be used as part of a more complicated string, or used manually in the search field. Note: Regular expressions using non-

ASCII characters can cause issues. These issues have been reported to Zencoder, and a fix is on the tracker. Q: Ember 04aeff104c
