What's New In Microsoft Band?

Use Microsoft Band to collect, analyze and share fitness insights. It is a fitness band that provides a rich fitness experience by quickly and easily tracking your daily fitness activities, such as steps, calories burned and your sleep. Microsoft Band also monitors when you're active or sleeping and keeps you on track to achieve your fitness goals. It is always with you and is designed to be worn 24/7 to help you live a better life. Fitness Data You can start the day on a solid fitness foundation with Microsoft Band. It tracks and displays your fitness activities and has more insight and intelligence than any other fitness tracker. Microsoft Band is a smarter fitness tracker because it tracks and understands what you're doing, giving you more insight and empowering you to take control of your life. Track your activity Microsoft Band is designed to help you understand your activity levels and give you the confidence to take control of your life. Track your steps, calories burned and distance with step, heart and workout sensors. Sleep monitoring Microsoft Band is an excellent sleep tracker that keeps you active during your night's sleep to help you get the rest you need. Its deep learning algorithm can detect and track your sleep so you can better understand your sleep habits. All-Day Fitness Microsoft Band's built-in GPS Land Elevation Maps helps you understand how your activity affects your fitness. Microsoft Band works for all activities, including walking, running, biking, swimming, rowing and more. It includes a new map feature that will show elevation and GPS for more detailed tracking. Get activity insights Microsoft Band is designed to help you understand your activity levels, giving you insight into the types of activities you're doing and how your activity affects your health. Microsoft Band can also help you achieve fitness goals, give you advice on your fitness routine and help you understand how your activity affects your sleep. Up to 5 Devices Microsoft

Band can connect with up to five other Microsoft Band devices to help you with your fitness goals. Sync with apps, devices and Microsoft Health. Now your daily activities, exercise and health information is always with you. With Microsoft Band, you can sync with one or more Microsoft Band devices, including a phone, tablet, PC or Mac. Elevation mapping Use Microsoft Band to navigate your surroundings to see where you are. When you are inside, Microsoft Band will display the elevation of where you are. The closer you get to the top of a mountain, the lower your elevation. Track sleep Microsoft Band tracks your sleep patterns and provides information about your sleep habits. Cardio and strength training Microsoft Band can track your heart rate and track the intensity of your workouts. Easily view your activity history, watch video tutorials, get tips and more.
